EU Opti-S∈al™ Tear Off Optical disposable adhesive

Opti-SealTM provides the best sealing option for (p)PCR plates and (q)PCR 8-strip tubes- The EU Opti-SealTM is non pierceable and can be easily removed after the (q)PCR reaction is performed. Pressure applied by the heated lid of the thermal cycler keeps the seal well closed during thermal cycling. Opti-SealTM generates superior results and is designed and tested to be used in Real-Time PCR applications.
