

BIOplastics

96 x 0.1 ml Well semi skirted Firm Deck2 plates

Fits all brands 0.1 ml qPCR cyclers

the *One and Only* which fits all 0.1 ml (LP) cyclers

In short

- Extreme Firm Deck rigid and flat
- Semi skirted, wrap resistant
- Robotic handling systems compatible
- Non removeable laser-mark labelled
- Substitutes two component Hard-Frame plates
- Can be closed with any BIOplastics cap format

Formats

- 0.1 ml low profile Semi Skirted
- White, frosted natural or clear
- Made from optimized (q)PCR PP, identical to BIOplastics unique extruded recipes
- With or without laser marked barcode and/or QR coded
- Any side barcoded up to 5 sides
- Customized laser-marking on request

Compatible (q)PCR cyclers and platforms

- **Fits** almost all 96 well **qPCR cyclers** which accept **0.1 ml** plates (eg **Roche, Thermo, Bio-Rad, Life Techn, Qiagen**)
- Stackable, no nesting, flat, robust, wrap resistant
- Fits all 96 well PCR cyclers with height adjustable lids
- Fits and can be handled by Robotics platforms
- Cycler compatibility list can be found on www.bioplastics.com

(q)PCR perfect

- Substitutes 2 component plates
- Enables “one plate fits all strategy” to limit result variations while reducing validation efforts at the same time
- highly reproducible results
- Low CO₂ Footprint, recyclable PP
- Pyrogen, DNA, RNA, DNase and RNase free

Designed and manufactured in The Netherlands, Patented

Firm Deck range covers: non-, semi- and full skirted plates, semi skirted 8 and 12 tube strips, Tear-Off mats all in Low Profile (0.1 ml) and Regular Profile (0.2 ml) formats.
